

Add AIW button to your website

The AIW is the official representative body for Waterproofing in Australia. So promoting your business as a member of the AIW is important, as it builds credibility and trust with potential customers.

Adding our button to your website is easy:

1. Choose the button you want to use, right click, and save to your computer.

Visit Site

Visit Site

2. Insert the following code into a prominent spot on your website:

```
<a href="http://www.waterproof.org.au" target="_blank"></a>
```

Note: make sure you change the file name to the one you decide to use (ie. aiw-member3.jpg)

You can also adjust the dimensions of the image by specifying width and height.

```
<a href="http://www.waterproof.org.au" target="_blank"></a>
```

3. If you aren't sure what to do.

Your web designer should be able to easily insert the code onto your site, however if you aren't sure, please email elliott@temerity.com.au and they can organise this for you (free of charge).
